PRELIMINARY AMENDMENT

Preliminary to examination of the above-cited application, please amend the application as follows:

IN THE CLAIMS:

Please add the following new claims:

73. The apparatus of claim 1 further comprising a multiplexer operable to multiplex a plurality of input signals to produce the first input signal received by the tunable optical element.

74. The apparatus of claim 73 wherein the multiplexer comprises a selected one of an arrayed waveguide device, a diffraction grating device, a fiber Bragg grating device, a thin-film interference filter, or a second tunable optical element communicatively coupled to a second reflective element.

75. The method of claim 22 further comprising multiplexing a plurality of input signals to produce the first input signal.
